ALBERT B. MILES, M. D.

In Memoriam

ALBERT B. MILES, M. D.

BORN IN PRATTSVILLE, ALA., MAY 18, 1852.
DIED IN NEW ORLEANS, LA., AUGUST 5, 1894.

The following preamble and resolutions were adopted at a regular meeting of the Board of Administrators, held August 8, 1894:

WHEREAS, the Charity Hospital, by the death of Dr. Albert B. Miles, is deprived of its eminent and beloved chief of staff, who served as resident student from 1873 to 1875, as assistant house surgeon from 1877 to 1881, and as house surgeon from 1882 to 1894;

RESOLVED, That it is with deep sorrow we deplore the loss to this institution of so faithful and efficient an officer, and to the State of so distinguished and philanthropic a citizen.

RESOLVED, That to his wise and valuable suggestions, and to his active co-operation with the Board, the work of improvements has been greatly promoted, and the usefulness of the Hospital increased in the interests of suffering humanity, and to the credit and honor of the staff.

RESOLVED, That whilst resigned to the inevitable, our hearts throb with grief as we recall the loving nature of our friend, endeared by all the manly virtues, whose life illustrated the golden rule, and who walked among men as a shining light.

E. S. LEWIS, M. D.

All communications relative to admission into the school should be addressed to Sister Agnes, Charity Hospital.

ANNUAL REPORT
OF THE
BOARD OF ADMINISTRATORS OF THE CHARITY HOSPITAL,
For the Year Ending December 31st, 1894.

Gov. Murphy J. Foster, Governor of Louisiana and Ex-Officio President of the Board of Administrators of the Charity Hospital, New Orleans, La.:

Your Excellency—I beg leave to submit my annual report of this institution for the past year, and also such suggestions and recommendations as seem appropriate for the future. By reference to the report of the House Surgeon, you will note that we have a larger attendance than in past years, taxing the utmost capacity of our over-crowding wards. It is exceedingly gratifying, however, to report that we have been enabled to receive and properly care for all those unfortunates who have presented themselves at our gates.

Our Medical and Surgical Departments have kept pace in their respective spheres with the advanced progress and developments of their different departments. Many improvements of a general character have been made, which are conducive to the general welfare and the sphere of usefulness of this institution; and the buildings have all been maintained in the best condition and order.

I respectfully desire to reiterate my annual and urgent recommendation that we obtain additional land, to be used in the construction of the much needed ward (building) for *contagious and infectious diseases*, as it is well established that all diseases of this class should be perfectly isolated. The committee in charge of the work of obtaining this additional land on Locust street is making progress, having acquired the greater

portion of the front on Locust street, and are, at present, negotiating for the balance of the front on that street. The acquisition of this land, which is now unoccupied, for so high and noble a purpose as that for which we intend it, strongly appeals to its holders to lend us their assistance in our task of aiding and succoring the unfortunate sick.

Our system of Trained Nurses has proven most effective, and it is a source of profound satisfaction that we have, since its inception, been enabled to develop its sphere of usefulness; it has been done slowly, carefully and successfully. We have now as many nurses as we have accommodations for; and I avail myself of this opportunity to impress upon you that we shall, in the very near future, have to provide more ample and additional quarters for our Trained Nurses, for it will be necessary for us to gradually and steadily continue to increase the number of these nurses, until they shall have the attendants required in all the wards. The advantage of having a separate home (building on the grounds) for the nurses will readily commend itself; for a home of their own, with a modest library and other means of intellectual and rational diversions, will not only serve to elevate the service, but will have a still greater attraction in drawing our supply from the best elements.

I desire respectfully to call your earnest attention to the great need of establishing a School for Trained Male Nurses, and organizing it upon the same footing as that of the Female Trained Nurse Department. The urgent need of such a school forcibly appeals to you, and I trust that at an early date it will be successfully inaugurated.

I commend to your consideration the enlargement and further development of the Pathological Department; also, the creation of a Bacteriological Department (which, owing to the great advance that science has made must now be considered a necessity in all hospitals), and the importance of which will present itself to you; as the matter has been under favorable

advisement on the part of the Medical Committee, it now only remains, by your early action, to create and develop so essential and necessary an adjunct to this Hospital.

We are gradually introducing iron beds and furniture into the Hospital. The supply of filtered water has been materially increased by the introduction of a new filter, which, in addition to our former one, will give a supply of 50,000 gallons a day.

We have, by the introduction of fire hose in our Main Building, and by reason of other means, taken additional precautions against danger by fire.

The Surgical Amphitheatre, owing to the causes with which you are familiar, has been delayed beyond the allotted time; every effort has been made to hasten its completion, and unless some untoward conditions arise, I anticipate that it will be ready for occupancy by the 15th of February. Owing to conditions beyond our control, the cost of this building in extra work has been very large; but it has been the object and purpose of those in charge of its construction that all the work and material, also the electrical and general surgical equipments, should be of the most modern and approved character.

I earnestly trust that by reason of the great advantages to accrue therefrom, and the material assistance which the surgeons will derive in their responsible and honorable tasks that we shall have no cause to regret these additional expenditures.

We have had further assistance from the Legislature in the enactments of Acts No. 130, relative to foreign heirs, and 66, relative to Marine Insurance Companies, and from which eventually we hope to derive additional revenues, as the increasing development of this institution is gradually entailing much larger yearly expenditures, and these will also continue to increase as we extend our sphere of usefulness and in responding to the demands made upon us.

The Ambulance Corps has faithfully continued its satisfactory services.

The preservation and registering of the valuable reports of this Hospital has already been urged upon your attention, and I beg respectfully to repeat my previous recommendations that proper steps be taken towards their safe keeping, and their proper registration be assigned to the care of a medical officer of this institution.

It becomes my painful duty to make record of the death of our much esteemed House Surgeon, the lamented Dr. Albert B. Miles, who, commencing his career a youth within the walls of this institution, in which he remained some twenty years—from student to house surgeon—and from a period when entirely unknown, left behind him a name that stands pre-eminently high in the annals of his profession, and is here a household word among the sick and suffering.

To the members of the Medical and Surgical Visiting Staff of this institution, and to the corps of instructors of the Trained Nurses, we are very much indebted for their earnest assistance and very able co-operation.

I beg to commend the very admirable services of our much honored Sisters of Charity, who, in their ceaseless, silent, untiring ministrations of charity and good deeds, have added so much to the efficiency of this Hospital; and the responsible duties devolving upon them have been performed in a most admirable manner.

House Surgeon J. D. Bloom, in the performance of the varied duties devolving upon him, has ably maintained the high reputation attached to his position.

Assistant House Surgeons Fortier and Parker have effectively discharged their duties; and the medical students have been prompt and efficient in their Ambulance Service, and also in their duties in the interior of the Hospital.

I desire to express in this report my commendation of the efficient services of our Secretary and Treasurer; also of our Chief Engineer, whose duties have been largely increased by the

erection of the Amphitheatre. The Clerk, also, has discharged his duties with his usual regularity and promptness.

The various committees have given much care and attention to carrying out the responsible trusts confided to them, and the results of their labors will be found in the generally improved condition of this institution.

The wants and requirements of the Hospital, and the contemplated improvements, will entail our careful husbanding of our resources ; and, by strict economy, we can maintain our expenditures within the present limits of the amounts appropriated by the Legislature.

We have, to a certain extent, kept separate the munificent legacies left us, and apply them to the purpose of aiding in our much needed works of permanent improvements ; and we trust to be enabled to continue to have a separate reserve fund on hand arising from legacies and donations. These legacies are a source of most gratifying encouragement, which, whilst enabling us to carry out the humane and charitable purposes of the donors, serve us an additional encouragement and incentive in the performance of the grave and responsible duties which we have assumed.

Respectfully submitted,

W. G. VINCENT,
VICE-PRESIDENT.

Annual Report of Secretary and Treasurer.

CHARITY HOSPITAL,
STATE OF LOUISIANA, }
NEW ORLEANS, JANUARY 1, 1895.

To the Vice-President and Board of Administrators:

Gentlemen—Referring to the usual tables herewith annexed, I beg additionally to advise you of the following matters:

LEASE OF UNION COTTON PRESS AND SHEDS.

The three years' lease of this property will terminate on September 1st of the present year.

INSURANCE.

The entire insurance resting upon the Hospital Buildings and property will expire February 19, proximo.

DONATIONS, LEGACIES, ETC.

On March 24th the Hospital was paid \$13,000.00 on account of the legacy of the late Thomy Lafon. On December 4th received the donation of \$1000.00 from the New Orleans Polyclinic.

Respectfully, etc.,

EDWIN MARKS,
SECRETARY AND TREASURER.

Annual Report of the House Committee.

CHARITY HOSPITAL,
STATE OF LOUISIANA, }
NEW ORLEANS, February 4, 1895.

To the Vice-President and Board of Administrators :

Gentlemen—Your House Committee beg leave to report as follows, being a summary of improvements for the past year :

IRON BEDSTEADS.

Owing to the fact that the original contractors for iron bedsteads having enhanced their figures beyond the price agreed upon, after furnishing 100, it was found necessary to enter into arrangements with another firm on more favorable terms. The latter contracted to deliver to the Hospital 600 beds fully equal to those furnished by the first contractor, at a less price, and under which 100 were delivered of satisfactory character. The 500 remaining undelivered have been warehoused by the company pending the correction of certain faults of manufacture, and are not to be received unless fully up to the requisite standard.

WATER APPLIANCES, ETC.

Work is in progress to minimize the risk from fire. In the Main Building, hose connections have been made with the large water tanks in the garret for prompt use in the event of accident. Iron stairways in the upper portion of the Main Building, in lieu of the wooden ones, are earnestly recommended. All these prudential measures are in the interests of the large number of sick and comparatively helpless people within the walls of the institution.

AMBULANCE SERVICE.

This service has been satisfactorily performed during the past year. The ambulances have been repaired, and are at present in good running condition. We would urge that the horses required for the service should be of the best for such work. We recommend that the committee be authorized to create a high standard in this respect, and one comporting with the importance of the service.

ROOF GARDEN.

During the past year, the roof garden, designed for use of convalescent children, and situated over the "Dormitory for Trained Nurses," has been properly laid out, and will be availed of in pleasant weather, much to the advantage of the "little ones."

GENERAL REPAIRS, ETC.

The ordinary repairs to the buildings have been looked to. Several enlarged windows have been placed in the rear of the Main Building, in lieu of the old ones, and conforming to those in its front.

HOSPITAL SUPPLIES.

The contracts for supplies for the Hospital, entered into in April, are being satisfactorily carried out.

Respectfully submitted,

A. R. BROUSSEAU, CHAIRMAN.

JOHN T. GIBBONS.

Annual Report of the Finance Committee.

CHARITY HOSPITAL, }
STATE OF LOUISIANA, }
NEW ORLEANS, February 4, 1895.

To the Vice-President and Board of Administrators:

Gentlemen—Your Finance Committee beg leave to report that the statements of the Treasurer correctly convey the fiscal movement of the Hospital for the year ending December 31, 1894, and to which they have nothing to add.

Respectfully, etc.,

G. W. SENTELL,
JOS. A. SHAKSPEARE,
GEO. SEEMAN.

COMPARATIVE STATEMENT OF DISBURSEMENTS

Avery, Mrs. Avery's Band of King's Daughters, Mrs. H. Littell, Mrs. Kidder, Miss. Seixas, Miss Magda Forstall, Miss Angele Puig, Miss Helen Leeds, Miss Marian Gayle Jones, Master Bayne Jones, Mrs. George Denegre.

G. A. Clarke, bucket of la cuite.

Annual Report of the House Surgeon.

CHARITY HOSPITAL,
STATE OF LOUISIANA,
NEW ORLEANS, February 4, 1895. }

To the Vice-President and Board of Administrators :

Gentlemen—The clinical records of the Hospital detailing the work of the year in the various departments of its charity are herewith respectfully submitted. At the last annual report there were remaining in the Hospital 786 patients; during the year 9064 were admitted—a total of 9850 cared for in the wards of the institution. Of this number 5314 were white, 3501 were colored, and 249 children; 7927 were discharged, 1143 died and 780 were remaining on January 1, 1895. In the obstetrical service 216 children were born. The daily average of patients was 693.

The admissions were the largest in twenty-four years; no epidemic disease prevailed, and the increase but emphasizes the appreciation by the poor of the institution's charity and convenient advantages for the care of the sick. The mortality, which has been steadily decreasing with each succeeding year, was but little more than 11 per cent., including patients dying within twenty-four hours of admission.

The requirements of the various ward services in modern equipments and furnishings have been fully described in the reports of my late and distinguished predecessor. I beg to urge upon you the necessity of securing these improvements, when consistent with the finances of the institution. The need of an accident ward will be increased with the completion of the surgical amphitheatre, and likewise facilities for modern aseptic conditions in the ward services of the surgical division, to all of which

these requirements pertain. The delay in the construction of the surgical amphitheatre and necessary adjuncts is to be deplored; its completion will make a new era in hospital work and benefits.

The Department for Children, with its established claims to individuality, has won the protectorate of the kindly ladies of our community, and improved sanitation, embellishment and comforts through their benevolence are soon to be accomplished.

The attendance in the Outdoor Clinics evidences the helpful benefits of this department to the poor; 19,945 patients applied for treatment, to whom 68,727 consultations were given. In addition to the work of the clinics, 2474 cases were attended in the accident service.

To the Ambulance Service has been added improved equipments, which enhances the efficiency of the service and adds to the merit of its humane work. The corps answered 1417 calls during the year.

A resume of the work of the year makes the showing of a medical and surgical relief administered to 32,135 patients. In this work the hospital capacity has been severely taxed, as the daily average indicates. The increased capacity requisite, the special care of infectious and contagious diseases and the necessities of improved nursing, should prove argumentative in enlisting the aid required in securing the contiguous properties and disused highway, for so beneficent a purpose.

The records approvingly ratify the benefits accruing from the progressive spirit of your administration, and forcibly point to the needs of the improvements further contemplated.

The Charity Hospital Training School for Nurses is in the second year of its organization, and proves an efficient adjunct to the medical work.

The gentlemen comprising the corps of lecturers, who have materially added to the success of organization and proficiency of the school, deserve our gratitude. The zealous and untiring efforts of Miss Agnes O'Donnell, the Superintendent of Nurses, is worthy of special commendation. The temporary quarters of

the school is but another instance of the necessity of further building area.

It is the desire of Sister Agnes to inaugurate, in connection with the male division a School for the Training of Male Nurses, which I commend for your early consideration and approval. Provision for their accommodation would be the essential initiative, and this but reiterates our present contention. The success of the school I believe to be assured and its benefits will amply repay the expenditures that may be necessary. The erection of special dormitories for the employes deserves your considerate attention.

Increased traffic and the contemplated industries in this vicinity, I fear, will prove a very serious menace to the comforts and lives of our sick. In this connection, I beg to urge the necessity of securing a noiseless pavement on the front and rear streets of the Hospital, and to further enlist your active opposition to such conditions as may militate against the peace and quiet of the neighborhood.

The care of the medical archives, instituted in connection with the library of the Hospital, will encourage increased medical interest. An appropriation for library purposes, to secure cataloguing and necessary additions, would advance its educational advantages.

Ever in the interest, work and perfection of benefits, has been the assistance of the Sisters of Charity, and worthily merit grateful recognition.

The various officers associated with me and the members of the Visiting Staff are deserving of thankful acknowledgment.

I desire to commend the industry of my assistants, Drs. S. M. Fortier and W. E. Parker.

A review of the reports of the various departments submitted for your inspection are suggestive of a trend to the perfection of our State's great charity on a basis of humanitarianism—moral, scientific and utilitarian, the evolution of which bears impress of the organizing spirit of this reform—the philanthropy of our late and lamented Dr. A. B. Miles, whose memory is fitly deserving of some associated commemoration.

Appreciative of your honored favor,

Very respectfully,

J. D. BLOOM,

HOUSE SURGEON.

Pathological Department.

CHARITY HOSPITAL, }

The above represents cases to whom a total of 68,727 consultations were given. The same patient, in many instances, may have been treated at several different times during the year.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS
IN THE CHARITY HOSPITAL FOR THE YEAR 1894.

Operation.	Result.			Total.	Diagnosis. Remarks.
	Cured.	Improved.	Died.		
Abdominal Sections—					
Gunshot Wound.....			1	1	Perforation of Spleen.
Gunshot Wound.....			1	1	Perforation of Liver.
Gunshot Wound.....			1	1	Perforation of Spleen. Splenectomy.
Gunshot Wound.....	1			1	Two Perforations of Stomach.
Gunshot Wound.....			1	1	Three Perforations of Ileum.
Gunshot Wound.....	1		1	2	Three Perforations of Jejunum, one of Transverse Colon.
Gunshot Wound.....			1	1	Grazed Wound of Stomach.
Gunshot Wound.....	1			1	No Viscera Wounded.
Gunshot Wound.....			1	1	Perforation of Spleen and Two of Stomach.
Gunshot Wound.....	1			1	Two Perforations of Jejunum and Two of Stomach.
Splenectomy.....	1			1	Floating Spleen.
Appendectomy.....	1			1	Appendicitis.
General Peritonitis.....			1	1	Ruptured Appendicitis.
Intestinal Obstruction.....	2		1	3	
Stab Wound.....	3			3	
Stab Wound.....			1	1	Protrusion of Viscera several hours.
Stab Wound.....	1			1	Two Perforations Small Intestines and Wound of the Mesentery.
Amputations—					
Hand.....	2			2	Railroad Injury.
Hand (save Thumb).....	1			1	Railroad Injury.
Arm.....	1			1	Machinery Injury.
Arm.....	2			2	Railroad Injury.

Forearm.....	1	1	Tubercular Disease of Wrist.
Forearm.....	1	1	Machinery Injury.
Forearm.....	1	1	Railroad Injury.
Forearm.....	1	1	Epithelioma of Hand.
Forearm.....	1	1	Chronic Ulcer of Hand.
Foot (Chopart's).....	1	1	Railroad Injury. Tetanus.
Foot (Lisfranc's).....	2	2	Machinery Injury.
Foot (Pirogoff's).....	1	1	Railroad Injury.
Foot (Symes).....	1	1	Gangrene.
Leg.....	1	1	Compound Fracture. Gangrene.
Leg.....	1	1	Compound Comminuted Fracture.
Leg.....	1	1	Painful Stump.
Leg.....	1	1	Cicatricial Contraction.
Leg.....	1	1	Carcinoma.
Leg.....	11	11	Railroad Injury.
Leg.....	1	1	Gunshot Wound.
Leg.....	1	1	Senile Gangrene.
Synchronous Amputation of Both Legs	3	3	Railroad Injury.
Synchronous Amputation of Both Legs	1	1	Gangrene.
Hip Joint (Wyeth's).....	2	2	Osteo-Sarcoma of Femur.
Hip Joint (Wyeth's).....	1	1	Tubercular Knee and Thigh.
Excisions and Resections—				
Epithelioma.....	1	1	Roof of Mouth.
Epithelioma.....	5	3	8	Of Lower Lip.
Epithelioma.....	3	3	Of Face.
Epithelioma.....	1	1	Of Nose. Rhinoplasty also performed.
Epithelioma.....	1	1	Of Thigh.
Epithelioma.....	1	1	Of Wrist.
Tubercular Submaxillary Glands.....	1	1	
Sarcoma of Orbit.....	1	1	Enucleation of Eye.
Sarcoma of Scalp.....	2	1	3	
Sarcoma of Back.....	1	1	2	
Sarcoma of Breast.....	3	2	5	
Sarcoma of Neck.....	1	1	
Melanotic Sarcoma.....	1	1	Of Inguinal Region.
Sarcoma of Testicle.....	1	1	Castration.

STATE OF LOUISIANA.

Operation.	Result.			Total.	Diagnosis. Remarks.
	Cured.	Improved.	Died.		
Excisions and Resections—Continued.					
Sarcoma of Face.....			1	1	
Carcinoma.....		1		1	Around Anus.
Carcinoma.....	5	1		6	Of Breast.
Lipoma.....	3			3	Of Back.
Lipoma.....	1			1	Of Shoulder.
Fibro-Lipoma.....	1			1	Of Breast.
Fibroid.....	1			1	Of Breast.
Fibroid.....	3			3	Of Leg.
Inferior Maxilla.....	2			2	Osteo Sarcoma.
Elbow Joint.....	1			1	Compound Comminuted Fracture.
Elbow Joint.....	1			1	Gunshot Wound.
Shoulder Joint.....	2			2	Gunshot Wound.
Rib.....			1	1	Empyema.
Rib.....	3			3	Hepatic Abscess.
Herniotomy—					
Strangulated Inguinal Hernia.....	5		3	8	
Irreducible Inguinal Hernia.....	2			2	
Irreducible Omental Hernia.....	1			1	
Boules' Czerny's.....	1			1	Irreducible Inguinal Hernia,
Halstead's.....	1			1	Radical Cure.
Bassini's.....	1		1	2	Radical Cure.
Strangulated Femoral Hernia.....	1		1	2	
Incisions—					
Hepatic Abscess.....	4		5	9	

53

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—CONTINUED.

Operation.	Result.			Total.	Diagnosis. Remarks.
	Cured.	Improved.	Died.		
Operations on the Genito-Urinary Organs—					
Continued.					
Urethrotomy, External.....	2	1	3	Extravasation of Urine.
Divulsion.....	2	5	7	Stricture of Urethra.
Dilatation.....	16	11	27	Stricture of Urethra.
Varicocele.....	6	6	Veins Ligated and Scrotum Shortened.
Spermatocele.....	1	1
Perineal Section.....	1	1	Chronic Cystitis.
Supra-pubic Cystotomy.....	5	5	Vesical Calculus.
Supra-pubic Cystotomy.....	3	1	4	Chronic Cystitis.
Castration.....	1	1	Myxo. Sarcoma of Testicle.
Castration.....	1	1	Enlarged Prostate.
Amputation of Penis.....	2	1	3	Epithelioma.
Operations on the Female Organs of Generation—					
Hysterectomy, Vaginal.....	7	2	9	Carcinoma of Uterus.
Hysterectomy, Abdominal.....	3	1	2	6	Uterine Fibroids.
Laparotomy.....	5	5	Chronic Salpingo-Ovaritis.
Laparotomy.....	1	1	Ruptured Pus-Tube.
Laparotomy.....	1	1	Chronic Ovaritis.
Laparotomy.....	2	1	3	Chronic Salpingitis.
Laparotomy.....	1	1	Ovarian Cyst. Pregnancy.
Laparotomy.....	7	7	Ovarian Cyst.
Laparotomy.....	2	2	Multilocular Ovarian Cyst.
Laparotomy.....	2	2	Carcinoma of Ovary.

96

Operations on the Female Organs of Generations—Continued.

Laparotomy.....	1	1	Tubal Pregnancy.
Colporrhaphy, Anterior.....	4	4	Cystocele.
Colporrhaphy, Posterior.....	3	3	Rectocele.
Curetting Uterus.....	7	7	Retained Placenta.
Curetting Uterus.....	26	9	35 Chronic Endo-Cervicitis and Endo-Metritis.
Vesico-Vaginal Fistula.....	1	1	2
Perineorrhaphy.....	9	9	Lacerated Perineum.
Trachelorrhaphy.....	10	1	11 Lacerated Cervix.
Curetting Cervix.....	2	2	Carcinoma of Cervix.
Miscellaneous Operations—			
Tracheotomy.....	2	2	Carcinoma of Larynx.
Laryngotomy.....	1	1	1 Traumatic Stenosis of Larynx.
Hare Lip and Cleft Palate.....	1	1	2
Hare Lip.....	1	1	1
Double Hare Lip.....	1	1	1
Hemorrhoids.....	21	21	21 Ligation.
Ophthalmic Operations—			
Enucleation.....	1	1	1 Ruptured Eye Ball.
Enucleation.....	1	1	1 Sarcoma of Orbit.
Cataract, Double.....	1	2	3
Cataract, Senile.....	7	5	12
Cataract, Congeital.....	3	1	4
Trephining—			
Skull.....	2	1	3 Depressed Fracture of Parietal Bone.
Skull.....	1	1	1 Depressed Fracture Frontal Bone. Cerebral Abscess.
Skull.....	3	3	3 Compound Depressed Fracture Frontal Bone.
Skull.....	1	1	1 Traumatic Epilepsy.
Skull.....	1	1	1 Cerebral Abscess.
Skull.....	1	1	1 Dropsy of Ventricle. Mengitt's.
Skull.....	1	1	1 Gunshot Wound. Lateral Sinus Packed.
Vertebra.....	2	2	2 Fracture.
Rib.....	1	1	1 Pyo-Thorax.
Rib.....	2	1	3 Hepatic Abscess.

SUMMARY OF OBSTETRIC CASES IN 1894.

There were 212 cases of Obstetrics.

White	114.	Multiparæ	100
Colored	98.	Primiparæ	112

PRESENTATIONS.

POSITIONS.

Vertex	191	Left Occipito-Anterior	119
		Right Occipito-Anterior	30
		Left Occipito-Posterior	1
		Right Occipito-Posterior	1
		Uncertain	40
Breech			191
Shoulder			4
Footling			1
Face			4
Unknown			1
			14-24

There were three cases of Twin Pregnancy.

MANNER OF DELIVERY.

Naturally	203
By Forceps	9
By Manual Traction	1
By Podalic Version	2

MORTALITY OF MOTHERS.

Of the 212 mothers 3 died, making a mortality of a little more than one and one-third per cent.

CAUSES OF DEATH.

Rupture of Uterus. (Moribund when admitted)	1
Cerebro-Spinal Meningitis	1
Puerperal Eclampsia	1

The number of children born were 215.

Male	122	Living	197
Female	89	Still-born	18
Uncertain (abortions)	4		

Most of the still-born children were delivered before the seventh month.
